NOTES:

Material: 18mm particle board or similar.  
Anti-turbulence panels 18mm on cabinet centre line. Internal panels may also be attached to side panels using 12mm battens. These are to be glued and pinned to ensure airtight joints.

Grilla cloth frame and runners are of 18x18mm softwood. Frame must fit edge to edge of cabinet. Lower frame is pinned to the cabinet.

All visible panel surfaces to be veneered.

\* The two drivers are isolated at this point. Two parts either side, of 207x35mm, to form the horn throats.
